

**INSUL-LITE  
SERIES**

TOGETHER WE ROLL

## **2 1/8" INSULATED DOOR**

### **A Revolution in Roll-Up Truck Door Design**

Since 1999, we have been manufacturing innovative PVC truck doors that offer the perfect balance of strength and flexibility.

### **PROFIT FROM SUPERIOR DOORS:**

- Safer for Drivers
- Cleaner Design
- Germ-Free Panels
- Lightweight
- Water Tight
- Recyclable
- Save money!

## INDUSTRY LEADING 2 1/8" INSULATED DOOR FEATURES

### PANELS

- NEW 12" x 2.125" panels are designed with weather barrier. Patent pending no.15420251.
- Zinc plated hinge for extended hinge life with optional SS upgrade available.
- Designed to drop-in to most standard external hinged Freezer doors.
- Durable and light weight, extruded structural PVC provides an estimated savings of up to \$800 in fuel costs during the life of the door.
- Our PVC design never requires painting and won't show scratches like most other truck doors.
- Superior protection against water and dirt penetration.
- The McLaren door panel has a special additive that provides superior protection against UV damage and chemical corrosion.
- Our clean design provides protection against water and dirt penetration, as well as anti-microbial protection for a germ-free surface.
- MCLAREN DOORS are backed by an industry leading 5-year warranty against panel rotting, fading and delamination.

### INSULATION

- MCLAREN DOORS uses 94% closed cell eco-foam with a manufacturer rating of 7.5 R-value per inch.
- Panel ends are sealed with rubber to prevent water absorption which leads to increased door weight.

### TOP BRACKET ASSEMBLY

- Our low headroom galvanized steel top bracket and SS mounting plate is engineered for fast and easy adjustment.

### COUNTERBALANCE

- Single and dual spring galvanized operator assembly available.

### REINFORCEMENT

- Aluminum reinforcement supplies maximum strength and supports hinges without sacrificing our light weight design.

### BOTTOM PANEL

- Standard with an aluminum bottom seal retainer.
- PVC seal insert with dual durometer leg provides enhanced resistance to closer shock.
- NEW Through U-Bolts allows easy inside access to our unique and exclusive cable design.
- OPTIONAL Bottom swing hinge allows the bottom panel to stay out of harm's way in the header of the door.

### ROLLERS

- 6200Z sealed bearing nylon roller with 4" stainless steel shank provides a rust free stronger roller that requires no greasing. Our rollers are rated for 100,000 cycles.

### SEALS

- Dual flexible rubber seal ensures good seal contact, even on older frames. We also offer an optional header seal to increase your contact range up to 2".
