

CLEAN, LIGHT AND TIGHT

OUR DOORS ARE....

CLEAN

What is the benefit by using PVC doors for your company?

- PVC is ideal for use in the food industry as PVC is a food grade safe material.
- PVC panels have a smooth finish making it easy to clean.
- Doors are constantly getting scratched and chipped. With McLaren Doors solid white material, scratches and chips will be virtually invisible, keeping your door looking amazing.
- McLaren Doors cables our hidden behind the door post to prevent damage to your expensive decals.
- PVC will not fade.
- PVC does not delaminate or flake and will save you the \$500 paint charge for your truck.
- Graffiti can be removed using specialized cleaners.
- Our PVC hinges and stainless-steel rollers do not require greasing, which means no grease marks on your door and decals.
- Galvanized springs and operators not only look cleaner but also increase the longevity of your operator unit and are standard with all McLaren Doors.
- PVC does not rust. Your door says a lot about your company and how it operates. A clean truck represents an organized and high-quality company to potential and existing customers. The McLaren door will show your customers that your company is a smart choice.

OUR DOORS ARE....

LIGHT

The McLaren door weighs up to 50% lighter than the standard door which means keeping profits in your company by:

- Reducing injuries associated with door operation.
- Lower maintenance costs from double the roller support.
- Single Spring utilization allows for faster repair.
- Reducing workers compensation claims.
- Reducing driver fatigue which helps keep your drivers more alert.
- Reducing your company's carbon foot print in an industry that is starting to demand it.
- Increasing cargo weight availability
- Reduces gas consumption from \$50 to \$250 per year. Having a light weight door is worth more to your company than you might think. The McLaren door will literally pay for itself in the savings over the lifetime of the door.

OUR DOORS ARE....

TIGHT

What does it mean to have a tight McLaren Door?

- The McLaren Door is ideal for thermal efficiency. No metal fasteners going through the door eliminates thermal gateways.
- The McLaren Door is designed to operate smoothly and quietly.
- Reduced maintenance costs and maintenance requirements.
- With a 94% closed cell eco-friendly foam and rubberized sealant no water absorption
- Panels designed with rounded edges for reduced pinch points.
- McLaren Doors has the longest truck warranty in the industry.
- The McLaren Doors have patented integral hinges that stop water, dirt and snow dripping on your cargo. A tight design and operation has become an increasing necessity in the freight industry. Reduced operational and maintenance costs are an essential component in that battle. McLaren Doors is in a class of its own when it comes to operation and performance and will help your company achieve those targets.
