2.Track Location

Specify the intended installation location of the tracks.

Accuracy is important. The track location determines the door width.

Corner angle mounting location:

(A) Secured to side wall (B) Secured to custom location (C) Flush to opening

Enter Position
A,B, or C

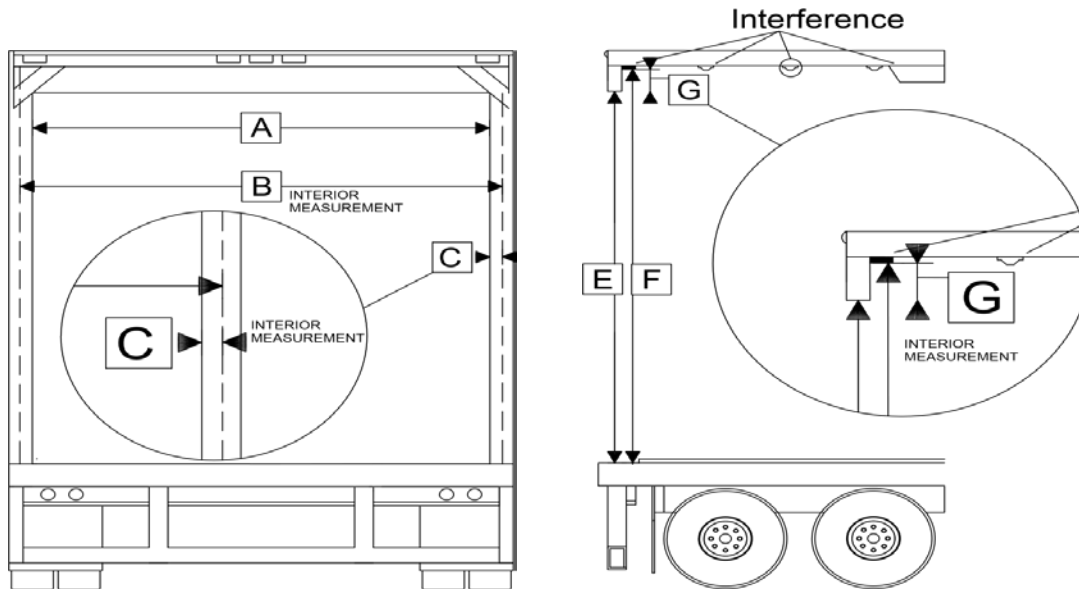

* If "B" enter the
setback dimension
from the opening

**Select one mounting
location only

3. Rear Frame Measurements

READ CAREFULLY BEFORE PROCEEDING

1. To ensure proper door fit, measurements should be within +0.00 to -0.125"(1/8")
2. When measuring for "G" check for obstructions. (I.e. roof bows, light bar, loose wires etc.)
This measurement must be of useable/clear space only, to avoid installational and operational interferences.
3. **IMPORTANT: ALL MEASUREMENTS ARE INTERIOR MEASUREMENTS.**
DO NOT MEASURE THE OUTSIDE OF THE TRAILER BOX

Width Measurements

Opening Width	A	<input type="text"/>
Wall to wall	B	<input type="text"/>
Side Post	C+	<input type="text"/>

Measurement **MUST** be equal to **A+C+C**

**NOTE: MINIMUM 2" SIDE POST.*

Height Measurements

Opening Height	E	<input type="text"/>
Floor to ceiling	F	<input type="text"/>
Clear Header	G*	<input type="text"/>
Box length		<input type="text"/>

F to C = O.H + Header

Ex. 18',28',48', 53', please specify length

**NOTE: MINIMUM CLEAR HEADER OF 6" REQUIRED FOR STANDARD DOORS OR 6.5" FOR FREEZER DOORS*

Special Requirements

EXAMPLE: remote evaporater, countersunk tracks, raised floor, wall shelving, or any other potential obstructions.

Please email completed door order form to info@mclarendoors.com or fax to 905-713-0676

- Any changes or cancelations must be submitted within 24 hours of receiving this order. Changes submitted after 24 hours are subject to a restocking charge.
- Some paints and decals contain pigments which may cause heat build up. Only low heat pigments should be used. Contact Roador before applying paints or decals for more details.
